School Fuel is the volunteer-run local non-profit education foundation that supports all of Novato's public schools. We help make the educational experience in Novato's public schools engaging and enriching for all students.

School Fuel supports enrichment, literacy, technology, and wellness programs in all of the Novato public schools.

This school year, School Fuel provides funds to support elementary music, elementary visual arts, and library enrichment grants for each campus in the Novato school district.

We also fund grants for numerous special projects and programs based on applications from individual teachers and student groups.

Your contributions this year will help fund these grants. For a complete list, or information on applying for a grant, please visit School Fuel's website, www.novatoschoolfuel.org.

2018 Annual Giving Campaign Campaña Anual de Recaudación de Fondos del 2018

School Fuel es la fundación sin fines de lucro para la educación local, dirigida solo por voluntarios y que apoya a todas las escuelas públicas de Novato.

Nosotros ayudamos a que la experiencia educacional en las escuelas de Novato sea intrigante y enriquecedora.

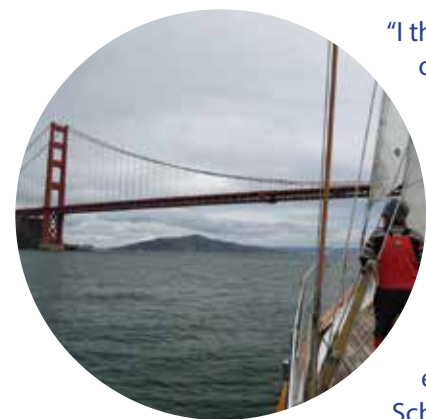

School Fuel apoya el enriquecimiento, la literatura, la tecnología, y programas de bienestar en todas las escuelas públicas de Novato.

Los fondos dispensados por School Fuel en la escuela que asiste su estudiante este año ayudan con el costo de la música, la biblioteca y con becas para programas de enriquecimiento. También estamos fundando becas para numerosos proyectos especiales basados en peticiones sometidas individualmente por maestros(as) y grupos de estudiantes.

Sus contribuciones este año ayudaran a mantener vigentes este tipo de becas. Para la lista completa de becas y programas que apoyamos, visite la pagina de internet de School Fuel, www.novatoschoolfuel.org.

Praise from our Enrichment Grant Recipients:

"I think experiential education is one of the best ways to learn and the students were able to learn firsthand about sailing and SF Bay during the trips. The chance [for students] to get out of the classroom and on a boat, learning as they took in the surroundings, was a pretty amazing experience. I can't thank School Fuel enough for providing us with this grant!"

Melissa Havel, San Marin biology teacher

"This grant impacted our journalism class in a major way. We were able to launch a wonderful school newspaper, with most of the printing costs covered. This allowed the students to see their work in print and online, which enhanced their confidence and experience. The grant was essential to the growth of the class. The students were appreciative beyond belief!"

Josh Rosenberg, Novato High journalism teacher

"We have nearly 100 mentor/mentee relationships. [The School Fuel grant for afterschool mentoring] has been a game changer here for those kids who need stability. It has helped significantly with student academic and social/emotional achievement."

Steve Hospodar, Principal Hamilton K-8
